

## Buying Programs

There are 3 different programs available to **sell** your product to Blackburn

1.) Core Value Program – The Core Value Program from Blackburn is available to all URG members. Our core prices populate on Eden Exchange supported by Buddy Automotive Software. The weekly **buy list** is available through URG on Checkmate, Powerlink 2, Pinnacle Classic and Pinnacle Pro. Suppliers participating in our core value program will receive a 25% discount when purchasing, free shipping and no return core is required.

2.) Presort & Ship – Pull cores you want to sell and we arrange a pick up. Stage cores on skids or in Gaylord boxes and once you have 4-6 we will pick them up and pay for the load. Just follow these simple steps:

**Step 1.** Pull alloy cores and stage on skids or Gaylord boxes; assemble at least 4 skids

A "How To" video is available at [www.blackburnwheels.com/we-buy/](http://www.blackburnwheels.com/we-buy/)

**Step 2.** Contact Bob Pasal at 1-800-981-8321 x127 or [Bobp@blackburnwheels.com](mailto:Bobp@blackburnwheels.com). Bob will schedule a carrier to pick up the freight

**Step 3.** Bob will provide a Bill Of Lading (BOL), make copies and attached one to each skid

**Step 4.** Once product is received at Blackburn's facility, we will take an inventory and provide a check-in manifest (Please see example attached)

**Step 5.** Create an invoice and send to Bob

**Step 6.** Blackburn will issue a purchase order and submit payment within 2-3 weeks

3.) Inventory Purges – Create an inventory list of any alloy and steel wheels you would like to sell and email your list to Bob Pasal at [bobp@blackburnwheels.com](mailto:bobp@blackburnwheels.com). We will review the list and provide a price for each wheel we want to purchase. Excel spreadsheet preferred.

Chrome and Chrome Clad Wheels: Chrome/face of wheel must be in good condition; cannot have any damage or peeling on face of wheel. Minor front and rear lip bends and corrosion are acceptable.

Steel Wheels: Must be structurally sound with no lughole damage or lip bends; minor corrosion is acceptable.

**Additional information is available under the "We Buy" tab on [blackburnwheels.com](http://blackburnwheels.com)**
